PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with a solid foundation in business information systems. Skilled in SQL, Excel, and data visualization, with the ability to analyze and interpret datasets to support data-driven decisions. Eager to develop expertise and contribute to business growth through actionable insights.

PROFESSIONAL SKILLS DEMONSTRATED

Technical skills

- Excel (Advanced: Power Query, Power Pivot)
- Data Cleaning & Transformation
- Power BI & Tableau
- Power Query/Pivot
- SQL & Database Management
- Python

Soft skills

- Analytical thinking
- Problem Solving
- Team Collaboration
- Attention to Detail
- Time Management
- Communication
- Critical Thinking
- Creative Thinking

RELEVANT PROJECTS

Sales Performance Dashboard (Excel) (2025)

Analyzed sales data to highlight top regions, products, and customer trends. Used Excel, Power Query, and Power Pivot to clean data and build an interactive dashboard showing KPIs like revenue, profit margin, and customer segments.

Candy Line Sales Dashboard (Excel) (2025)

This project focused on analyzing sales performance to track total profit, sales value, orders, and customer distribution. I used Excel with Power Query and Power Pivot to prepare the data and design dashboards with breakdowns by product, region, and shipping modes, delivering actionable insights through clear visualizations.

Employee Sales Dashboard (Excel) (2025)

Built an interactive dashboard to monitor employee performance and sales distribution across regions. Including KPIs such as total sales, top employees, top companies, and regional performance. Visualized sales trends over time and across regions to support performance evaluation and business decision-making.

Telecom Customer Churn Dashboard (Excel) (2025)

Developed an interactive dashboard to analyze telecom customer behavior and churn patterns. Created KPIs such as total customers, churn rate, call usage, and protection service adoption. Built visualizations for demographics, contract types, payment methods, and churn reasons, providing insights into customer trends and retention opportunities.

EDUCATION

Bachelor of Business Information Systems (In Progress, 2023–2027). Helwan University, Cairo, Egypt

GPA: 3.81 (A+)

High School Diploma (2023). St. Amin Al-Ray, Cairo, Egypt

Cumulative: 85.50 %

EXPERIENCES

Data Analyst Intern – Digital Egypt Pioneers

July 2025–December 2025

- Participated in hands-on training focused on data analysis and business intelligence.
- Built interactive dashboards using Power BI to visualize customer and sales data.
- Applied SQL and Excel for data cleaning, reporting, and generating insights.
- Enhanced analytical and problem-solving skills in real-world projects.

Data Analyst Intern – Commercial International Bank (CIB)

August 2024

- I completed a one-month internship focused on the banking sector and data literacy.
- Gained exposure to financial data analysis and reporting processes in the banking industry.
- Improved understanding of data-driven decision-making and its applications in

Trainee – The Egyptian Exchange (EGX)

September 2024

- Attended a one-week training program focused on capital markets and stock exchange operations.
- I gained knowledge of trading mechanisms, financial instruments, and market regulations.
- Improved understanding of how data supports financial analysis and investment decisions

Certifications

- ☐ Data **Literacy Program** – Commercial International Bank (CIB), 2024
- ☐ Banking **Sector Fundamentals** – Commercial International Bank (CIB), 2024
- ☐ Financial **Data Analysis** – Commercial International Bank (CIB), 2024
- ☐ Business **Reporting with Data** – Commercial International Bank (CIB), 2024
- ☐ Capital **Markets Training** – The Egyptian Exchange (EGX), 2024
